## Welding Radiator Repairing

RADIATOR, lamp, fender, windshield repairing, glass replaced. Oxygen acetylene welding and brazing. Arizona Radiator Repair Shop, 4 W. Van Buren.

## PINAL DEVELOPMENT

## LOOKS LIKE A MINE

Once again mining stocks, copper especially, are enjoying much activity, and of the local Pinal Development company is one of the most active. This company has been investigated by mining interests in the east and the property has become well known and well thought of. J. C. Devine arrived from Boston on Tuesday and states that conditions are excellent in the east and that much capital is available for the development of legitimate enterprises. He has things lined up in a financial way and the prospects for Pinal Development company are big. Devine left for the mine today with a number of miners and the development will be continued as previously outlined. The new work on the property recently referred to will be immediately started.

## MINING ENGINEERS TO MEET IN STATE

The American Institute of Mining Engineers will, this year, hold its annual autumn meeting in Arizona, and the itinerary booklet has just been issued.

A special train will leave the Grand Central terminal in New York on Thursday, September 14, at 5:30 p. m. arriving at Santa Rita, New Mexico, on Monday, September 18, at 4 p. m. During the morning the party of members will visit the mine of the Copper Company and the mill of the Empire Zinc Company, and in the afternoon will proceed to Hurley, New Mexico, to visit the mill of the Chino Copper Company. At 10:15 p. m. the train will leave Hurley for Douglas, Arizona, arriving there at 7 a. m. on Tuesday, September 19. This day will be occupied in visiting the reduction plant of the Copper Queen Consolidated Mining Company and of the Calumet & Arizona Mining Company and in attending technical sessions of smelting and leaching. The train will leave Douglas Tuesday at 11 p. m. arriving at Bisbee, Arizona, at 1 a. m. on Wednesday, September 20. Here the mines of the district will be visited and at the technical session mining and geology will be discussed.

On Friday, September 21, will be spent at Globe, Arizona, where the institute members will visit the mines and reduction works of the Old Dominion Copper Company. After lunch, technical sessions will be held to discuss concentration and flotation, and also, fine grinding, and later the members will attend a banquet. On Friday, September 22, the party will still be at Globe, and will visit the reduction works of the International Smelting & Refining Company. Opportunity will also be afforded to see the mills of the Inspiration Copper Company and of the Miami Copper Company. In the afternoon a technical session will discuss mining and smelting and the day will close with a banquet and a social evening.

On Saturday, September 23, after breakfast, the party will leave Globe by automobile over the Apache trail, visiting the Roosevelt dam and arriving at Phoenix about 5:30 p. m. in ample time for dinner. Those who make the necessary arrangements may visit the Ray Consolidated Copper Company's mine. At 8 p. m. the special train will leave Phoenix for Grand Canyon, arriving on Sunday, September 24, at 8 a. m. Here the excursion party will remain through the day, contemplating the wonderful panorama and visiting the various objects of interest. At 7:40 p. m. the special train will leave on its return trip eastward.

The Southern California section of the Institute will, if 20 members, agree to go together, engage a special Pullman car to carry the party to the development of legitimate enterprises. He has things lined up in a financial way and the prospects for Pinal Development company are big. Devine left for the mine today with a number of miners and the development will be continued as previously outlined. The new work on the property recently referred to will be immediately started.

Deming, New Mexico, where they will join the special excursion train from New York, traveling with it to the Grand Canyon, and then returning to Los Angeles by regular train. The secretary of the section, Dr. F. J. Merrill, has arranged with the railroad companies for a special Pullman car for this trip, together with transportation at a total cost of \$125 per capita, exclusive of meals.

## FINANCES AND MARKETS

[Republican A. P. Leased Wire]

NEW YORK, Sept. 7.—(Wall Street). Over extended bull activities in some prominent specialties suffered more or less depreciation in today's broad and active market, while coppers, petroleum, tobacco and numerous minor issues pursued a contrary course. There was heavy selling of the Mercantile Mariner, the common making an extreme decline of two points, with two for the preferred. United Fruit, controlled by the marine interests, made a gross gain of 4½.

United States Steel reflected steady realization profits on yesterday's advance to new record, though losing only a half point on the day. Reading's strength was the outstanding feature, mounting ½ to 110½, its highest price since last May, with moderate activity and strength in coals, New York Central, B. & O. and New Haven. Pacific helped the movement raise for a time, but fell back on light offerings.

Improvement in coppers did not make much headway until the final hour, when inspiration rose three to a new record of 49½, with average gains of 1½ points in other metals. Favorable trade conditions and additional foreign orders were accepted as the primary reasons for the movement. Scarcity of the finished products accounted for the activity at higher prices of the several paper issues. International Paper, common and preferred, gaining from 2 to 4 points. Munitions and equipments were irregular at best, and motors yielded to pressure with their accessories.

Total sales of stocks aggregated 1,035,000 shares. Bonds were irregular, with heaviness in Rock Island debentures. Total sales, par value, \$3,485,000. U. S. Bonds unchanged on call.

## CHICAGO GRAIN

CHICAGO, Sept. 7.—Reports that Greek forces had joined with the British and French troops to fight the Bulgarians led to a decline in the wheat market today, but prices later made a rally, helped by word of Bulgarian success against Rumania. The close was nervous, 4½ to 1½ net lower, with December at \$1.53½ and May at \$1.55. Corn finished ½¢ off to a like advance, oats down ½¢ to 4½¢, and provisions varying from 15¢ decline to a rise of 10¢.

Wheat traders seemed to be watched chiefly for signs as to whether an outlet would soon be found for the big surplus stocks piled up in Russia and Rumania. Assertions that Greek troops at Saloniki had reinforced the Anglo-French allies had an immediate bearish effect here. Bullish reactions late in the day failed to overcome entirely the previous downwardness in the wheat market. The recovery, though, was still in progress when interrupted by the closing gong. Most of the relative final strength appeared to be due to the sur-

render of a Rumanian fortress and 20,000 men within fifty miles of the capital of Rumania. Corn averaged lower with wheat. Oats weakened mainly out of sympathy for wheat and corn. Provisions had a downward tendency for the most part. Close: Wheat—Dec. \$1.53½; May, \$1.55. Corn—Dec. 75½¢; May, 78½¢. Oats—Dec. 49½¢; May, 52½¢. Pork—Oct. \$27.00; Jan. \$24.75. Lard—Oct. \$14.42; Jan. \$14.00. Ribs—Oct. \$14.27; Jan. \$13.10.

## LIVESTOCK

At Kansas City

KANSAS CITY, Sept. 7.—Hogs, receipts 5000; 1c higher. Bulk, \$10.65 @ \$11.55; heavy, \$10.50 @ \$11.00; light, \$10.70 @ \$11.15; pigs, \$8.50 @ \$10.05. Cattle receipts, 5000; steady.
